## THE GREEN SCHEME

### LIGHTOLIER LYTECASTER SOLID-STATE RETROFIT

#### Key Features:

- Tool free installation
- Improved cut-off and optic performance
- Consumes 20 watts; average life is 50,000 hours
- Uses 75% less energy than incandescent; Energy Star rated
- Works with both 5" & 6" Lightolier Lytecaster frames
- Replace 75 watt incandescent light sources with 20 watt LED Module

Many Lytecaster frames have been installed over the last 20 years. This Retrofit allows for the opportunity to replace existing incandescent fixtures with LED fixtures for greater energy efficiency. For more information about the Lightolier Lytecaster Solid-State Retrofit, visit a [Wolfers showroom](#) or contact a Wolfers expert lighting consultant today.

HOT DESIGNS  
FOSCARINI

The stylish Le Soleil suspension lamp is made of polycarbonate, and is available in three colors: white, red, and aquamarine. The use of a material that does not reveal the light helps to create the special luminous effect of Le Soleil, with beams of light projected upwards and direct illumination downwards. Available with halogen 3x60W G9 energy saver, and halogen 1x75W GU10. Dimensions are W 24 7/32" x H 17".

Check out this item and other hot new designs at [wolfers.com](http://wolfers.com).

## WHAT'S HAPPENING AT WOLFERS

### SMART GREEN LIGHTING SEMINARS
