THE GREEN SCHEME

BULBRITE® UNVEILS SUPER HIGH POWER DIMMABLE LED PAR30 AND LED PAR38

Visit Wolfers' new Green Zone to learn how to incorporate energy-wise lighting into your projects.

The Super High Power LED PAR30 and PAR38 provide all of the freedoms of traditional incandescent lamps and allow these energy efficient light sources to set a variety of moods and ambience for today's interiors. The Super High Power Dimmable LED PAR30 produces 500 lumens and is a direct replacement for a 65-watt BR30 or a 50-watt PAR30 halogen bulb.

The Super High Power Dimmable LED PAR38 produces 743 lumens and is a direct replacement for a 100-watt BR40 or a 75-watt PAR38 halogen bulb. Both the PAR30 and PAR38 bulbs are engineered with a Super High Power chip that provides the brightest and best quality LED output.

As part of the company's energy efficient lighting solutions, BULBRITE's Super High Power Dimmable LED PAR30 and PAR38 bulbs offer a long life of 50,000 hours. These new LEDs are available in a Warm White color with a CRI (Color Rendering Index) of 83. These LEDs have a life that is 25 times longer than traditional incandescent bulbs and offer up to 72% energy savings, plus maintenance costs.

For more information about the Super High Power Dimmable LED PAR30 and PAR38 bulbs, visit a Wolfers showroom or contact a Wolfers expert lighting consultant today.

HOT DESIGNS
